

WEB SITE: ADDITIONAL ORDERING OPTIONS

Specification

We have established that you may require multiple ordering options under each product to be displayed on the web site. For example, for a flower arrangement, several package and cost options may need to be displayed, such as "flowers with gift box: \$80" or "flowers with extra gift: \$60".

To achieve this, the web site will be designed with the ability to list up to six options under each product displayed on the web site. Each option will be displayed as a radio button, to allow the customer to select the item, and a brief description of the option (consisting of up to 256 characters).

Administration tools will be provided to allow Alyssiums On Pirie staff to add, edit and delete these ordering options for each product listed on the site.

Intention to Proceed

If the specification, extent of work and quotation are in order and you wish to proceed with these, please confirm your intention by signing below:-

Quotation Reference Number:	13032-2
Company, Business or Trading Name:	Alyssiums On Pirie
